MEMORANDUM

TO: General Walter B. Smith, Director of Central Intelligence

SUBJECT: Draft "Evaluation of the Psychological Impact of
            United States Foreign Economic Policies and Pro-
            grams in France." (PSB D-37)

I attach a draft of PSB D-37, bearing the above-quoted
title, for consideration and appropriate action by the Board
at its meeting on January 15, 1953.

This paper was developed by the PSB staff as an outgrowth
of the parallel project ███████████████████████████████   25X1B
You will recall that, ███████████████████████████████.
███████████████████████ some thought was given to
broadening that project to embrace Western Europe. Although
that alternative was not adopted, I have had in mind the
importance of U.S. economic policies and programs in this wider
area, and I have therefore directed that this paper on France
be developed in the staff. ████████████████████████ evalua-   25X1B
tion, it was written in frequent consultation with the Depart-
ment of State and has benefitted by the Department's comments.

I present this document to the Board for its consideration
and request permission to distribute it to interested agencies
for their information.
